OSVALDO SANTILLAN JIMENEZ

MID-SENIOR FULL-STACK ENGINEER | NODE.JS · NESTJS · TYPESCRIPT · REACT

Mexico | +52 7713932553 | osvaldonuevo@gmail.com | osvaldosantillan.com.mx

PROFILE

Results-driven Full-Stack JavaScript Engineer with 6+ years of professional experience building scalable, secure, and high-performance web applications and backend services. Strong expertise in TypeScript, JavaScript, Node.js, and NestJS, with hands-on experience designing RESTful APIs, backend architectures, authentication systems, database integrations, and third-party services. Proven ability to develop and deliver production-ready systems across fintech and SaaS environments, with a strong focus on clean architecture, performance, maintainability, and security. Experienced in React, Next.js, and modern frontend development, enabling end-to-end ownership of complex applications.

TECHNICAL SKILLS

Backend & Core	TypeScript, JavaScript (ES6+), Node.js, NestJS, Express.js
Frontend	React, Next.js, Angular, HTML5, CSS3, Tailwind CSS, Vite
Databases & ORM	PostgreSQL, MySQL, Oracle, TypeORM
API & Architecture	REST APIs, API Design, System Design, Clean Architecture, JWT Authentication, API Integration
Testing	Jest, Unit Testing, Integration Testing
Dev Tools & Cloud	Git, GitHub, GitLab, Docker, Kubernetes, Cloudinary, CI/CD Pipelines, AWS
Additional Backend	Java, Spring Boot, JPA, Hibernate
Methodologies	Agile (Scrum), Continuous Integration

PROFESSIONAL EXPERIENCE

Full Stack Engineer — Sep 2023 - Present

Business Prey / MiDPR - Remote

Led the architecture and full development lifecycle of MiDPR, a SaaS platform offering automated Personal Risk Diagnosis (DPR) and trust scoring for corporate HR and compliance workflows.

- Designed and developed scalable frontend architecture using React, Next.js, and Tailwind CSS, improving user experience and maintainability.
- Developed scalable RESTful backend services using NestJS, TypeScript, and Node.js, following a modular architecture for user management, data processing, diagnostics, and core business workflows.
- Built and secured RESTful APIs with Node.js (Express), handling user management, data processing, and diagnostics workflows.
- Engineered the SCI (Sistema de Confiabilidad Integral) to visualize risk scores and dynamically generate PDF reports for end users.
- Integrated third-party services including Cloudinary for optimized media management and delivery.
- Implemented secure authentication and authorization mechanisms using JWT, ensuring controlled access to application resources and business workflows.
- Collaborated with cross-functional stakeholders to define requirements, prioritize features, and deliver iterative releases in agile environments.

Full-Stack Engineer — Mar 2023 - Sep 2023

CodigoGeek - Ecatepec, Mexico

Contributed to the development of fintech applications and internal tools, supporting transaction processing, reporting, and integration with financial systems (PROSA).

- Developed and maintained client-facing and internal applications using React and Angular, ensuring high-quality user experience aligned with financial UX standards.
- Developed and maintained backend services using Node.js and NestJS for specific application modules and REST API integrations.
- Refactored backend services in Java (Spring Boot) and PHP, improving performance and reducing technical debt across legacy systems.
- Optimized SQL queries in MySQL and Oracle to support high-volume transaction reporting and data processing.
- Integrated third-party APIs and payment gateways, ensuring secure and compliant data handling.
- Collaborated in agile teams using GitLab, participating in sprint planning, daily standups, and continuous delivery workflows.

Full-Stack Developer — Feb 2022 - Nov 2022

Soluciones TI - Sahagún, Hidalgo

Developed and deployed web applications and backend services for SMEs and local clients, providing end-to-end development, deployment, and technical support.

- Developed RESTful APIs using Node.js and Express to manage backend logic, users, and content.
- Designed responsive web interfaces using JavaScript, HTML, CSS, and Bootstrap.
- Implemented custom PHP modules and administrative panels for dynamic content management.
- Managed end-to-end application deployments, maintenance, backups, and technical documentation.
- Provided technical support, documentation, and training to client teams.

EDUCATION

BSc in Software Engineering
Universidad Politecnica de Pachuca - Pachuca, Mexico

Technical High School - Programming
CBTIS 59 - Sahagún, Hidalgo (2021)

LANGUAGES & CERTIFICATIONS

Languages
Spanish - Native
English - C1 (Advanced)

Certifications
Scrum Fundamentals Certified - Apr 2023
Scrum Foundation Professional Certified (SFPC) - Feb 2023
Google Cloud: Infrastructure in GCP - Jul 2022
Google Cloud: Cloud Fundamentals - Jul 2022
Linkurious Enterprise 4.1 - Jan 2025
